

DRIVEN BY AIR.

ACCURA D10 / D20

Precision delivery and innovative design

ACCURA D10

ACCURA D20

It is not too late to equip your filling station or car wash with our quality products - you will be impressed by the precision and performance of these easy to operate units.

The benefits:

- Low-cost safe and reliable tyre inflation
- Durable as a result of innovative quantum technology

- Simple to maintain with excellent diagnostics
- Can be individually adapted to the needs of the customer
- Guaranteed accuracy based on individual testing

A HORNGROUP COMPANY

The digital tyre inflators ACCURA D10 and ACCURA D20 are designed for use in public places such as filling stations and car washes and are safe and simple to operate.

Description

- Robust die-cast aluminium housing
- 7.6 m filling hose with tyre valve connector
- Touch-sensitive buttons

Product features

- Clear display for ease of use
- High reliability and modern design
- Guaranteed accuracy $\pm 0.5\%$ due to integrated ceramic sensor
- Precision inflation with hoses up to 50 m
- Comprehensive diagnostics and error reporting
- Individually tested and supplied with a calibration certificate

Technical information

Characteristics:	LCD with 30 mm digit height
Electrical supply:	230 V - 50 Hz
Compressed air supply:	min. 7 bar (102 psi) max. 15 bar (217 psi)
Inflation pressure:	min. 0.3 bar (4 psi) max. 10 bar (145 psi)
Display resolution:	0.1 bar (1 psi)
Accuracy:	<0.08 bar (<1.16 psi)
Dimensions (w x h x d):	D10 - 420 x 300 x 90 mm D20 - 440 x 1512 x 280 mm
Weight:	D10 - 9 kg D20 - 30 kg

PCL is the world leader in the design and manufacture of tyre inflation and compressed air products.
