

ACCURA Compact D60 Tyre Inflator

Offers simple, safe and accurate means of tyre inflation .

ACCURA Compact offers the simplest, safest, most accurate means of tyre inflation within a space-saving and cost-effective, lightweight unit.

The robust engineering plastic design offers longer life and low maintenance, whilst the durable ceramic sensor enable extremely precise measurement, with tolerances well above the industry standard EC86/217. This makes it ideal for car dealership,

garages, car fleets and OEM applications, where ease of use, accuracy and reliability are key.

Key Benefits:

For the Operator

- Consistent cost effective provision of high levels of safe air inflation services
- Low life time costs - long product life with robust design and proven electronics
- Low and simple maintenance
- Simplicity
- Guaranteed accuracy with individual testing

For the Tyre User/Fleet Manager

- Reduced tyre wear extending tyre life
- Increased fuel economy
- Increased safety and reduced tyre-related incidents

Complies to:

EC Directive 86/217

BS EN 12645:2014

Key Features:

- Electronic pressure pre-set
- Auto start inflation up to 50 psi
- Clear display for easy customer usage
- Default to safe-setting
- Space-saving and lightweight design in length
- Robust, high reliability engineering plastic housing
- Ceramic sensor - accuracy to +/- 0.5% of full scale reading
- Attractive and durable membrane
- 230v, 100v/120v versions

D60 TS: All the above features and benefits but has a long lasting touch screen keypad instead of membrane switches & higher flowrates

D60HP: All the above features & benefits having max inflation pressure up to 232 psi and inlet pressure of 275 psi.

Accuracy	To +/- 0.5% of full scale reading	
Reading Accuracy	0.1 bar	1 psi
Dimensions	255 x 220 x 100 mm	
Weight	3.2kg	
Voltage	230Vac	
Power Consumption	15VA	
Maximum Inlet Pressure	16 bar	232 psi
Max Inflation Pressure	10.8bar	157psi
Inflation Flow	400 l/min @ 10 bar supply
